BACKGROUND

Teaching is a great way of contributing to society and enhancing the skills of young and impressionable minds. Riding atop this motto, KHANDELWAL CLASSES is set to commence its journey for helping students in their preparation for the coveted IIT-JEE (Advanced). We are set to mentor those students who have the commitment and determination to make it to

the IIT-JEE (Adv). This pursuit is aimed at achieving the twin objectives of helping passionate students to achieve outstanding success in IIT-JEE (Adv) as well catapult the name of Jharkhand on the IIT-JEE (Adv) map, so that the students do not have to take pains to move to far-off places like KOTA.

THE MENTOR

The KHANDELWAL CLASSES will be mentored by its core faculty Shri K K Khandelwal, Retd. IAS (1988 batch, AIR 8). An alumnus of IIT, Kharagpur K K Khandelwal (AIR 52, 1981 IIT-JEE Exam) has proved it with amazing consistency that through his quality teaching, cracking IIT-JEE (Adv) could in fact be a fairly simple exercise.

It so happened in the year 2009 that while Shri Khandelwal was engaged

with the hectic schedule of his key assignments in the Govt. of Jharkhand, his elder son Ankur went through the ordeal of joining coaching classes in Ranchi as well as in Kota (Rajasthan) without much success. Finding no other way out, the concerned father decided to guide his son all by himself. He personally taught Ankur Physics & Mathematics who got through IIT-JEE (Adv) in 2011 with AIR 570.

SUCCESS STORY REPEATED

Shri Khandelwal though not satisfied with the above outcome, yet he was convinced about his inherent knack of teaching and hence decided to guide his younger son Anupam who was appearing for IIT-JEE (Adv) in 2013. His nephew Aniket too joined Anupam. Both of them learned Physics and Mathematics from Shri Khandelwal exclusively. There was no interference or guidance from any one in teaching Physics and Mathematics to them except K K Khandelwal.

Anupam secured AIR 9 in JEE (Adv.) 2013, with the highest marks in Mathematics in the country and 100% marks in Physics Paper-2. Aniket got through with AIR 56 and secured 100% marks in Physics Paper-1. Anupam was also Zonal topper from IIT Kharagpur Zone (which comprises of West Bengal, Orissa, Jharkhand, Part of Bihar,

Chattisgarh, Andhra Pradesh and a few other states). Since creation of Jharkhand, Anupam Khandelwal has been the best rank holder in IIT-JEE (Adv). While Anupam was topper, Aniket Khandelwal was 2nd topper from entire Jharkhand as well as Bihar.

It is worthwhile to mention that in the 2013 IIT-JEE (Adv) exam, the cut-off marks for the selection from General category was 152 out of 360. Interestingly Anupam had secured 168 out of 180 marks in the 2nd paper itself. Thus, he could have got into IIT on the basis of marks secured in 2nd paper only. A comparative glance at the result of IIT-JEE (Advanced) 2013 of these two vis-a-vis the best in the country is quite revealing.

Marks are out of 120 in each subject

Subject	AIR - 09 Anupam Khandelwal	AIR - 56 Aniket Khandelwal	AIR - 01 All India Topper	AIR - 08 Topper in OBC Category
Maths	112	103	107	101
Physics	106	112	112	107
Chemistry	92	70	113	106

(*Marks of IIT Toppers as displayed at jeeadv.iitd.ac.in)

It is not difficult to perceive that had the marks in Chemistry (which was taught by a local institute) been of the same order as in Physics and Maths,

the story would have been different with both achieving single digit top ranks.

SUCCESS STORY REPEATED AGAIN

As a father of two young sons, sending both of them to IIT would have normally been end of the story. But K K Khandelwal was not content to sit on his laurels. While teaching his wards he had developed his passion for teaching and experienced eternal joy within him. He further continued with his passion and decided to teach few more students. Despite his pressing official

engagements, he managed to teach some students Physics and Mathematics. Including his sons, he taught a total of 16 students in various years and all of them cracked IIT-JEE (Advanced). Seven of them cracked IIT with rank within AIR 1000. Thus, his success rate has been 100% so far.

NOW THIS IS YOUR TIME

Driven by his passion to see as many students getting through IIT-JEE (Advanced), K K Khandelwal has decided to start a full-fledged coaching institute namely 'Khandelwal Classes' after retirement. In past, he had a very hectic schedule of working as a senior administrative

officer in government, and despite that he has proved his extraordinary capability of teaching. Now after retirement, he has 24x7 time to fulfil his dream and to guide the students. Thus, now this is your time to get benefited from his unparalleled teaching skills.

CONCEPT IS POWER

Cracking IIT with a good rank is not a mystery but simply an art of joyful learning with conceptual clarity from a capable faculty like K K Khandelwal. The basic concepts to clear JEE Advanced are built before the actual preparation

starts. To coach students to achieve top ranks in the exam, we are opening courses for class 8, 9 and 10. We will drastically improve analytical and in-depth thinking capability of the students.

THE STRATEGY : IN-DEPTH THINKING

The avowed aim of KHANDELWAL CLASSES is to prepare the students for successfully cracking IIT-JEE (Advanced). The following means are to be adopted for achieving the desired result :

- Top quality teaching inputs by Shri K K Khandelwal and other accomplished faculties.
- In-depth conceptual teaching and solving a problem by various techniques and identifying the best approach for tackling problems.
- Rigorous practice through interactive classes, doubt clearing classes, practice papers, complete set of high standard materials and regular tests.
- Developing analytical capability and self-confidence for helping the students solve any problem with relative ease and in shortest possible time.
- The focus of the strategy is to secure top ranks in IIT-JEE (Adv) by putting all-out efforts required for achieving the goal.

TECHNICAL SUPPORT BY ANUPAM KHANDELWAL

Anupam Khandelwal (AIR - 9) is working in a top MNC in South Korea but he is also coming back to Ranchi with his innovative ideas for technically supporting Khandelwal Classes. Anupam will develop a platform which will implement ways to make in-class teaching a better experience. Feedback mechanism

for students with personalized performance analysis will be the key feature. This platform will provide student-customized daily practice problems to overcome the weakness. Through this, he aims to give total care and supervision to students along the learning journey.

ADMISSION OPEN FOR CLASSES 8, 9 and 10

This is our firm belief that the students having proper commitment and sincerity can crack IIT if they are guided by good faculties. Since concept building is essential at an early stage, we are starting coaching for classes 8, 9 and 10 in this

year (i.e. 2023) followed by 11 and 12 from next year. Students going to class 8, 9, 10 in April 2023 academic session only and intending to crack IIT-JEE (Adv) will be eligible for admission. Please contact our team for details.
